x-dream-media is an European-wide acting **software integrator** with an entire commitment to the **media-IT**. We are specialists for **file based workflows** and **asset management**.

Our **service portfolio** spans from consulting via deployment, training and support services to custom development. Based on our long term experience we are building **productized solutions** to address the typical needs of our customers. Our specialists are highly experienced in selecting and combining **best in breed products**.

Our **projects** do span from the integration of standard software via our API-gluing product to the implementation of complex end-2-end business processes via our workflow orchestrator. In typical projects our solutions are ingesting audiovisual files and metadata into production, asset management or newsroom systems, are connecting so far isolated production islands, aggregating essence files and metadata to asset packages and are finally handing asset packages over to publishing and delivery. On a lower level we are processing or repairing media files.

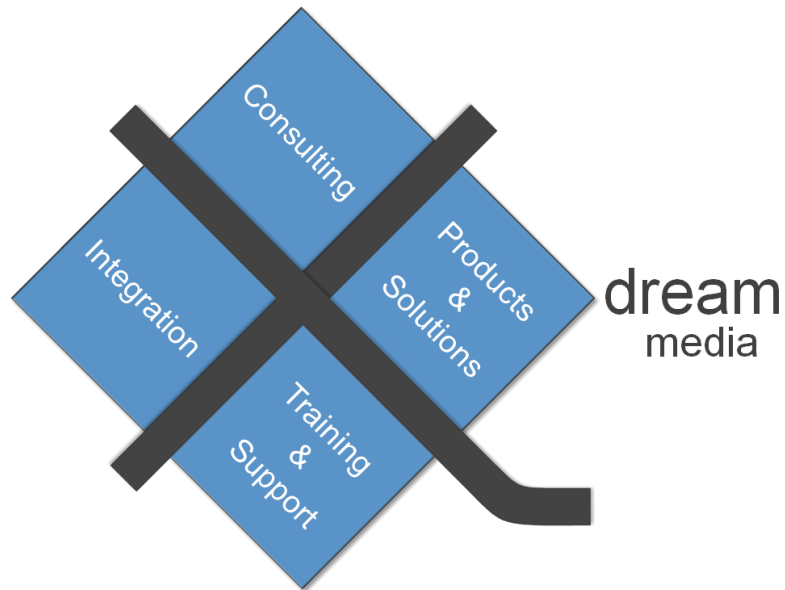

Amongst our **customer** are post-production facilities, broadcaster, agencies and network operators. Based on our service and product portfolio we do serve their needs in **production, broadcasting and delivery**. We are at hand of our customers throughout the lifetime of their production environment. After project services do include product and solution **training** and **support** as well as **managed services**.

- file-based ingest, production, archiving
- feed recording, review, playback, playout
- workflow, asset and rights management
- file transportation, stream playout
- content protection, watermarking
- digital signage, OTT, IPTV, WebTV

x-dream-media has own offices in Hohenbrunn, Munich and Vienna. We have representatives in France, England and Italy. In many other countries in Europe we have closest partners. x-dream-media is **multi-lingual** as well as **multi-cultural** positioned. Reaching your project aims is what our outmost important aim is. This goals reach is guaranteed by x-dream-media's team of business and technology specialists, highly experienced project managers and developers as well as addicted deployment and support engineers. Our core values are **honesty, commitment, fairness, competency** and **reliability**.

x-dream-media's **service and product portfolio** is partitioned into four lines of business:

- Solution Consulting
- Integration Development
- Pre-Integrated Solutions
- Operational Services

x-dream-media offers the full **range of services** within each sector:

- Technology and Workflow **Consulting**
- Workflow, Interface and PlugIn **Development**
- Software **Installation** and **Configuration**
- System **Training**
- 24/7 **Support**
- Software **Sourcing**
